

I'VE GOT THE POWER2GO

Your transportable
Energy Storage System

POWER2GO. WORK

Robust aluminum frame
for optimal wearing comfort
and secure grip

On/Off Switch

**MPPT controller
and MPPT connection**
for charging with a solar panel

AC output @230Vac
1x 2.500 W (Schuko-Plug)

Your perfect companion on
construction sites, in the field. Robust
design and functionality characterize
the **POWER2GO WORK**.

POWER2GO. LIFE

LED Light

Display
Display with battery status
and consumption

USB-C PD 100W

On/Off Switch

**MPPT controller
and MPPT connection**
for charging with a solar panel

AC output 230V

Your giant power bank for
versatile use in any situation.
Whether at the campsite, in nature,
or just for the garden.

No socket? No problem!

For our smartphones, we often reach for the power bank in our private lives. But what if more power is needed?

Let's think bigger! **POWER2GO** is designed for demanding users. Dust- and waterproof, **POWER2GO** is a robust companion for all situations.

Is it heavy to carry? Not at all! Can you carry it single-handedly? Absolutely! **POWER2GO** impresses with its extremely high power density and weighs only 23 kg! **POWER2GO** replaces your stationary power connection. Devices with up to 3,600 W peak power can be easily operated with **POWER2GO**. Consistent, long-term power output of 2,500 W. All of this is offered by **POWER2GO**, your reliable power network on the go.

Technical Properties

POWER2GO WORK & LIFE

Cell type	Lithium-ion
Energy content	2.500 Wh
Nominal power	2.500 W
Max.Power	3.600 W
Charging voltage	92 – 264 Vac
Charging power	1.000 W
IP class	IP65
Operating temperature	~10 to 65°C
Certification	UN 38.3, CE
Net weight	~23 kg
Dimension	471 x 507 x 227 mm
Material of the housing	Aluminum
Charging by solar panels	<500W

SOLAR PANELS IN A BUNDLE

Inexhaustible power? No problem!

With our foldable solar panels, you can sustainably charge your **POWER2GO** wherever there is sunlight. While camping, at the construction site, or at home in the garden. Not only do you save electricity, but you also do something good for the environment. Maximize power with your **POWER2GO**.
