

PRESS RELEASE

BMZ GROUP PARTNERS WITH CALB

Karlstein am Main, Germany, July 18th, 2022 – BMZ Group and CALB have signed a strategic cooperation agreement to develop and produce batteries for the EMEA, Americas and APAC market. Manufactured innovative lithium-ion based batteries will be used in wide range of EV's: electric buses, electric trucks, agricultural vehicles, construction vehicles and other LCEVs.

Both parties will jointly explore global market using their own advantageous resources, providing products relying on CALB NMC battery cells, the next generation technology One-Stop Batteries, and Solid-State Batteries from 2025+. With its R&D and manufacturing know-how, CALB becomes a strategic partner for BMZ to maintain its role as a leader in commercial vehicle market and beyond.

Further information on the BMZ Group is available at www.bmz-group.com.

About BMZ Group:

BMZ Group is a global player in the development and production of cross-industry lithium-ion system solutions. It offers the complete value chain from the cell and the battery to second life and disposal. In addition to supplying markets such as medical, power- & gardentools as well as industrial applications, the BMZ Group sees itself primarily as THE GREEN ENERGY SYSTEM PROVIDER. With the production of home and industrial storage units for photovoltaic systems as well as batteries for electric mobility, BMZ manufactures the heart of the necessary infrastructure for the energy and transport turnaround. In view of the impending climate change and its consequences, the BMZ Group is thus fulfilling its social, economic and ecological responsibility. The Group is headquartered in Germany and has additional production facilities in China, Poland and the USA, as well as subsidiaries in Japan, the UK and France. In addition, there are research and development sites worldwide. More than 1,800 employees work for the BMZ Group.

About CALB

CALB is committed to providing a global customer base with solutions spanning the complete battery life cycle in the R&D, production, and application of lithium-ion powered batteries. Currently exported to more than 30 countries through the globalized after-sale service including qualified certifications, which make CALB ranked third among the Chinese power battery market and the most trustworthy partner of excellent global enterprise. To achieving the goal by contributing a better future for mankind, CALB has planned a high and rapid capacity expansion of over 500GWh by 2025.
